Clinton Township Police

2023 Annual Use of Force Report

In 2023 Clinton Township Police Department had 46 uses of force or response to aggression reports, and subsequent investigative reviews. The procedure is to review the reported actions of the officers up through the chain of command to the Chief of Police. The reviews of these incidents are conducted with initial written reports of the incident and review of BWC (body worn camera). The chain of command will investigate to ensure that the response was within the law, department policy, and at the appropriate level of response from the officer(s) involved.

If the Chief of Police finds that an act of response by an officer was not within the above guidelines an internal affairs investigation would be initiated. This could include investigation from an outside agency such as the Franklin County Sheriff's Office to provide impartial review and factual findings for possible discipline or formal charges.

In 2023 there were 46 uses of force reports and subsequent investigations of review. There were 30 pursuits reviewed, and 16 uses of force regarding less lethal response or control contacts.

The description of uses reported are listed as follow:

1- Pursuit was related to a stolen car and armed robbery. Vehicle and suspects apprehended.

1-Pursuit was related to a burglary suspect, stop sticks deployed and apprehension made.

1-Pursuit for felony warrants of violence, suspect apprehended.

1-Pursuit assist to Franklin County Sheriff, stop sticks deployed and suspect apprehended.

26- pursuits of stolen vehicles that were cancelled per policy due to excessive high speed and dangerous driving of offender that put public at risk.

5-Uses of less lethal taser deployment. 3- taser deployments were for persons resisting arrest and attempting to physical fight officers or fleeing. 1- Robbery suspect tased for resisting arrest to flee and physically resisting officer. 1- for a mental health related call physically combative person.

2- Uses of O.C. spray. 1- use for person resisting arrest and officers. 1- use for persons failing to stop fighting each other upon officers' arrival to scene.

7- Uses of control moves or wrist lock type controls. The control methods were used in cases of resisting arrest and/or failing to comply with officer's orders.

2- Uses of breaking car window to remove intoxicated passed out drivers of motor vehicles.

The above uses of force and pursuits reported were found to be within policy after review of all documentation and BWC review. One use of force incident was referred for improper actions outside of use of force. Upon review an officer was found to be within legal guidelines but referred for policy violation of another cause and discipline issued for policy unrelated to the use of force.

The Clinton Township Police Department in 2023 recorded more pursuits than any other year in relation to integrating the Flock license plate reader system. This system alerts officers on patrol of stolen vehicles entering the jurisdiction and has increased the amount of interdiction. While we have initiated pursuits of these stolen vehicles, we have had to cancel many pursuits due to dangerous high speed and erratic driving into oncoming traffic of the offenders. For the month of December for example, approximately 974,056 vehicles passed by the flock system readers. Of those vehicles we had approximately 97 vehicles that were reported stolen enter Clinton Township jurisdiction.

*The use of force policy and pursuit policy of Clinton Township Policy are reviewed every year to comply with Federal and State Law. CTPD also conducts review to maintain certification in the Ohio Law Enforcement Collaborative.

**This annual report is issued per CTPD Policy and available to the public.
